

Pre-Entrance Testing for Practical Nursing

ATI-TEAS 7 is the required pre-admission test for SVCC Nursing Programs. SVCC allows up to 3 test attempts in an admission cycle. Testing occurs on several of our campuses for at least 2 months prior to an application deadline. There is a cost associated with this test and students register directly with Assessment Technologies Institute at www.atitesting.com. Tests are timed and are proctored, either on campus or via a remote-proctoring testing company if we are unable to test on-site.

To meet PN Program admission requirements with the ATI-TEAS, applicants must score at least 53% correct overall AND at least 53% correct on the math subtest on the current ATI-TEAS 7. Tests taken up to 3 years prior to application can be accepted. ATI-TEAS, Version 6 can still be accepted if taken within 3 years prior to application.

Further details, including current cost, link to preparation materials, and upcoming test dates can be found under the [TEAS Test Information Page](#) of this website.
